

Schaltbügel
Shift lever
Levier de commande

The diagram shows a top-down view of a bicycle handlebar assembly. It consists of a central horizontal bar with curved ends. Two levers are mounted on the bar. The upper lever is labeled '1' and the lower lever is labeled '2'. Each lever has a long, thin blade and a curved grip. The drawing uses solid lines for the main structure and dashed lines for internal or hidden components. Arrows point from the numbered circles to the respective levers.
